

Dear Sir;It saddens me to hear that you as a public entity feel that you can be bought. I would hope that you realize the more you take away from the people you serve the more they will realize how much you truly DO NOT serve them or their best interest. As a registered voting American who does and will vote I encourage you to reconsider the steps you are taking to reduce competition. Please reconsider this course of action and allow XM to continue to provide a service that is both unique and helpful to the common man.
